

Requirements for Lab report

1. Lab report should be submitted by class, electronic file (**Word** version) + paper file (**double-sided** printed).
2. Electronic files should be named according to **student ID _ name _AI_2021_2022_1. Calibri no. 5** is used, and the space between lines is **1.2** times.
3. The experimental results include **screenshots** and are analyzed in the experimental analysis column. You can put code in the lab report, but please do not list too much. **Single line** spacing for codes. The total number of pages for the four experiments should not exceed **60**.
4. If the lab report is not standard, call back, revise and print it, so it's best to do it all at once.
5. If there is **plagiarism**, the score of the experiment will be **0** directly, which will seriously affect your mark of usual performance .
6. Each experiment should start from **a new page**. The date on the beginning page of each experiment should be written, and the date on the score column at the end of the experiment should not be written.
